PROFILE

Self-motivated **Software Crafter** and complex real-time problem solver with strong **Flutter development** expertise. Passionate about building scalable, high-performance mobile applications using clean, maintainable, and well-architected code. Experienced in improving UI/UX, integrating **REST APIs**, debugging, and optimizing app performance. Known for taking ownership, solving challenging engineering problems, and continuously exploring modern technologies to deliver impactful solutions.

WORK EXPERIENCE

TCS, System Engineer 10/2023 – Present | Pune

- Contributed to the development of a cross-platform banking app for **India's largest bank** using Flutter, improving performance, security, and overall user satisfaction.
- Enhanced user experience (UX) by improving navigation flows, responsiveness, and accessibility across **Android** and **iOS** platforms.
- Recognized as '**Star of the Month**' for swiftly resolving a major third-party integration issue delaying production release.

Freelancer, Software Developer 06/2022 – 12/2022 | Remote

- Worked as a freelance developer during my BTech, managing end-to-end project life cycles including requirement gathering, UI/UX design, development, deployment, and maintenance.
- Integrating third-party APIs and optimizing application performance to improve **speed, reliability, and functionality**.

INTERNSHIPS

Software Developer, Impact Digtect Sol Pvt Ltd, Pune 01/2023 – 06/2023 | Pune

- Developed and maintained mobile application features enabling product display, customization, and ordering for khadi-based garments and lifestyle products.
- Collaborated with designers and backend teams to ensure smooth data flow and optimized **UI/UX** aligned with contemporary fashion trends.

Flutter Developer, Pyramid Developers 01/2022 – 05/2022 | Bengaluru

- Worked on Flutter-based mobile applications, focusing on **state management**, API integration, and responsive UI development.
- Contributed to feature implementation and daily development tasks, improving app functionality and user experience.

SKILLS

Java, Android, Flutter, Dart, C/C++, Python, MongoDB, Firebase, MySQL, Github, Web Development, IOT, Cloud, Networking

PERSONAL PROJECTS

Crack It 02/2023 – 05/2023

Created an **AI-powered** mock interview app offering realistic interview simulations and personalized feedback for better preparation.
<https://play.google.com/store/apps/details?id=com.basementgeniusstudios.crackit>

Code Share 09/2022 – 12/2022

Developed a collaborative coding platform with real-time code sharing, compilation, and execution through an intuitive user interface.
<https://play.google.com/store/apps/details?id=com.basementgeniusstudios.codeshare>

Quiz UI 01/2020 – 06/2020

Built a quiz-based learning app enabling students to practice MCQs and access subject summaries to strengthen understanding.
<https://play.google.com/store/apps/details?id=com.basementgeniusstudios.quizui>

EDUCATION

Government College of Engineering, B. Tech Computer Engineering 07/2020 – 05/2023 | Jalgaon
8.88 CGPA

G. H. Raisoni Polytechnic, Diploma Computer Engineering 07/2017 – 07/2020 | Jalgaon
90%

Bhagirath English School, Martication 06/2007 – 06/2017 | Jalgaon
77.0%

EXTRA-CURRICULAR ACTIVITIES

Copyright 09/2022

Secured **copyright** for developing an IoT-Based Energy Monitoring and Analyzing System designed to track and optimize energy consumption.

Smart India Hackathon (Finalist) 08/2022

Built **anuwadak**, a cross-platform application using Flutter, integrating text-to-speech, OCR, and real-time call translation functionalities for seamless multilingual communication.
